

12-Week Web Development Learning + Project Plan

■ Style: Daily short task (30–60 min), ek hi project pe apply karte hue.

■ Final Goal (12 weeks): Apna Personal Portfolio Website → ek website jo aapke skills, projects aur contact show kare.

Week-1 (HTML Structure + GitHub)

Day 1: Install VS Code, Git, Node.js. GitHub repo banao (my-portfolio). Ek simple HTML page banao: "Hello, I am [Your Name]". Push to GitHub.

Day 2: Learn headings, paragraphs, links, images. Portfolio me heading + profile image + short intro add karo.

Day 3: Learn lists, tables. Portfolio me "Skills" section add karo.

Day 4: Learn forms basics. Portfolio me "Contact Me" form add karo.

Day 5: Learn semantic tags. Portfolio ko structure do (header, sections, footer).

Day 6: Revision: pura HTML organize karo. Push to GitHub.

Day 7: Enable GitHub Pages → website live.

Week-2 (CSS Styling Basics)

Day 8: Colors, fonts, text-align → Portfolio heading aur text style karo.

Day 9: Box model (margin, padding, border) → sections ke beech space do.

Day 10: Buttons styling → "Contact Me" button ko style karo.

Day 11: Background color + gradient → header me background do.

Day 12: Classes & IDs practice → har section ko unique style do.

Day 13: Small design project → ek "Card" banao (for skills/projects).

Day 14: Push to GitHub + Review.

Week-3 (Responsive Design)
